PROFESSIONAL SUMMARY

Mission-driven leader with 15+ years driving social impact in international development and civic engagement, now leveraging technology to strengthen democratic participation and governance. Deep expertise in cross-sector collaboration, organizational strategy, and stakeholder management from a decade managing grant portfolios across Ghana, Nigeria, South Africa, Russia, and Turkey. Combines strategic foundation with 6+ years of full-stack development experience (Python, JavaScript, Ruby on Rails) to modernize systems and build tools that serve mission-critical goals. Proven ability to bridge technical teams and organizational leadership, with a track record of identifying how technology can amplify social impact. Former e-commerce co-founder with strong project management and business acumen.

TECHNICAL SKILLS

Languages:	Python, JavaScript, Ruby
Frameworks & Libraries:	Django, Ruby on Rails, React.js
